

YOUCEF HABIB OUAHAB

Software Engineer - Full-Stack Developer (React / Next.js / TypeScript / Node.js)

Setif, Algeria | 0560879734 | youcef.h.ouahab@gmail.com | uce-xef.com

PROFESSIONAL SUMMARY

Full-stack software engineer and Data Science graduate with over 3 years of experience building scalable web and mobile applications. Specializes in React, Next.js, and TypeScript on the frontend, with additional backend experience in Node.js and Django. Proven track record delivering production features across construction management, e-commerce, and mobile learning platforms.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS, SQL
- **Frontend:** React.js, Next.js, React Native, Redux Toolkit, MUI, Tailwind CSS, shadcn/ui
- **Backend:** Node.js, Express.js, Django, REST APIs, MongoDB, PostgreSQL, Supabase
- **Tools & Practices:** Git/GitHub, Agile collaboration, component-driven architecture, client-facing scoping

PROFESSIONAL EXPERIENCE

Frontend Developer (Full-time) | IsyBuild

November 2024 - Present

- Develop and maintain frontend sections for a web platform as part of a collaborative frontend team.
- Build reusable UI components and custom hooks to ensure consistency across assigned product areas.
- Troubleshoot and resolve UI and state-management issues to support overall product stability.

Full-Stack Developer (Freelance) | Afiyid - Phone Marketplace & Comparison Platform

2025 - Present

- Designed and built the frontend website for a scoring-based phone marketplace using Next.js and Tailwind CSS.
- Developed an admin dashboard utilizing React (Vite) and Axios for streamlined inventory and order management.
- Extended the existing Node.js and Express.js backend by engineering a comprehensive admin inventory system.
- Prepare client-facing proposals and pricing, working directly with the client on project scope.

PROJECTS

Matchy - Language Learning Mobile App

- Designed and built a production-ready language learning app end-to-end, including a React Native mobile app and a companion web dashboard.
- Built the backend using Supabase for authentication, content delivery, and progress tracking.
- Developed as final project for Master's degree, contributing to an Excellent distinction (18.5/20) result.

Comet ME - الدعم الفني Application

- Developed a technical support mobile application (الدعم الفني) using React Native, Expo, and NativeWind for an NGO providing renewable energy and clean water to off-grid Palestinian communities in the West Bank.
- Built features to streamline technical assistance requests and infrastructure maintenance ticketing for off-grid utility systems.

EDUCATION

Master 2 - Fondements et Ingenierie de l'Information et de l'Image *September 2023 - June 2025*

Universite Ferhat Abbas (Setif 1), Setif, Algeria

- Graduated with Excellent Distinction, 18.5/20
- Final project: Matchy - language learning startup prototype/app
